Evaluation of Environmental Impact

Building/Structure, P.C. No. 0980

Address 1253 W. Sepulveda Blvd

Use Replacement of existing sign with new smaller sign

The items checked indicate that, in my opinion, the project will not have a significant effect on the environment:

- ☒ Quality of the air and water;
- ☒ The aesthetic, natural and scenic qualities;
- ☒ Population and land use practices;
- ☒ Fish, bird and wildlife population;
- ☒ Archaeological, paleontological and historical sites;
- ☒ Existing noise levels.

Adverse effects on environment.

Visual aesthetic & traffic

Mitigating measures to minimize environmental impact.

Sign graphics

Relationship between local short term usage and the maintenance of long term productivity.

Some sign promotion is required for product sales to provide product identification, sales & public service

Irreversible and irretrievable commitments.

none

Alternatives.

1. Disallow sign
2. allow a sign of smaller size or different location
3. allow this sign

Summary

The proposed work does have a significant effect on the environment.
does not
